

## Superman in the Library!!!

Are you surprised? You should not be!! Our church library has a whole section dedicated to this very special man whose story touched and changed the entire world dramatically.

Come and browse the many books written about Jesus and/or watch the movies inspired by him. Jesus' world was in many ways different from our own reality, yet all too similar in other ways. The people then suffered from the same afflictions we suffer today, they encountered similar daily-life problems and their search for GOD was answered in one man who at the same time was much more than just a man.

“He was more than a carpenter” is something that Josh McDowell, a former skeptic who thought “Christians were out of their minds”, had to realize; and this insight changed his life profoundly. Marjorie Holmes depicts Jesus as a man of many friends, a healer, a martyr, a rabbi and most importantly: “The Messiah”.

In his book “Crucified and crowned”, William Barclay presents a historical and theological view of Jesus' last days in Jerusalem and the beginning of the Christian faith. Some said he was a rebel, but a handful of fishermen knew much better: Lee Roddy's book on Jesus also includes over 30 pages of movie photographs.

And don't forget to check the *New Arrivals* section for new editions about Jesus, the Holy Land and resources about biblical times.
